

# DK100Q/DK120Q

## 10T Hydraulic Jack

### DESCRIPTION

#### Heavy duty hydraulic jack

With a lift capacity up to 10t and the extremely low minimum height of 150mm, this low clearance hydraulic jack is ideal agricultural machinery and contractor's machinery. Made with a wide and robust frame of high strength steel, this unit is safe and ergonomically designed for ease of use.

- 10t lift capacity
- Quick lift pedal
- Minimum height of 150mm

Built with a wide and robust frame made from high strength steel, the DK40Q is fitted with a quick lift pedal for easy reach of lifting point and provides precise and safe control whilst lowering.

Loaded with safety features including built-in safety overload and manual dead man's release, this unit provides optimum safety when lowering. The noiseless wheels incorporating a polyurethane central O-ring offers maximum surface protection for the vehicles, while the ergonomically designed handles ensure a positive and safe experience for operators.
