

GD-2

Air Hydraulic Twin Ram Pit Jack

DESCRIPTION

Boasting a range of lift capacities, this rapid and precise air hydraulic unit with high speed ram travel has 2 individually controlled rams that offer safe and balanced lifting.

This lift is ideal for lifting cars, vans and light trucks. A great heavy duty lifting addition to any workshop.

- Lift capacities ranging from 10 / 15 / 20t
- Twin ram jacking beam
- Adjustable frame
- Comprehensive options range

Featuring 2 individually controlled rams for safe and balanced lifting, this heavy duty jacking beam has a simple modern design with the control panels positioned at an ergonomical working height.

With transversely sliding rams, plus a comprehensive options range, including cross beam, gearbox saddle, support bridge and more. This rapid and precise air hydraulic unit with high speed ram travel can be made to fit all pits due to its adjustable frame, with the frame height adjusted and set to your individual specification.
