

### DESCRIPTION

#### Product Highlights:

- Strong structure of 4 cylinders to ensure two independent oil circuits: hydraulic safety
- Low profile platforms are suitable for special or tuned vehicles
- Suitable for surface or in-ground installation
- The automatic bleeding of hydraulic circuits can be done easily by the operator without any type of technical assistance
- Equipped with safety valve against over-pressure
- Hydraulic system with safety device against unexpected uneven of platforms
- Automatic safety stop at 300 mm from the floor and throughout the whole descent the lift will beep warning
- High quality sliders guarantee a soft and stable lifting and lowering movement
- Free maintenance self-lubricating bushings
- Pushbuttons at 24V, type "dead man"
- Separated UP & DOWN pushbuttons and general switch lockable with padlock
- Insolated ON/OFF switch
- Safety system against obstacles on the lowering
- Made in Spain

| Tech Specs                 | JSL 35                 |
|----------------------------|------------------------|
| Load Capacity              | 3500 Kg                |
| Platforms Length           | 1534 - 2067 mm         |
| Platforms Width            | 630 mm                 |
| Drive On Height            | 105mm                  |
| Maximum Lifting Height     | 1930 mm                |
| Distance Between Platforms | 720 mm                 |
| Overall Width              | 2000 mm                |
| Motor                      | 415 V / 3 Phase        |
| Warranty                   | 3 years parts & labour |
