

DESCRIPTION

Features:

- New exclusive design with no cables and no pulleys meaning lower maintenance costs
- Fast installation time due to preassembly of most components
- Fast 28 second lift time improves efficiency
- Patented arm lock safety design for maximum safety
- Exclusive arm design allows users to lift wide range of vehicles from a smart car to large vans
- Patented lift pad design that will not split or cut
- 95mm lowered pad height for even the lowest vehicles
- Lift height of 2,000mm – ideal for the tall mechanic
- The patented arm lock system is such that once engaged they will not disengage without operator input. This reduces the risk of involuntary arm lock disengagement thereby greatly improving workshop safety.
- Simple up and down button for simplistic control of hoist. No two hand operation required. No need to raise hoist to disengage locking system. Engineered to be time and operator friendly
- Motor mounted high and out of the way of the user and car doors
- Available in custom colours to suit OEM requirements
- Special Volkollan pads customised 120 mm (lower friction and better wear behaviour)
- 100% manufactured in Spain
- 3 year exclusive warranty

DESCRIPTION

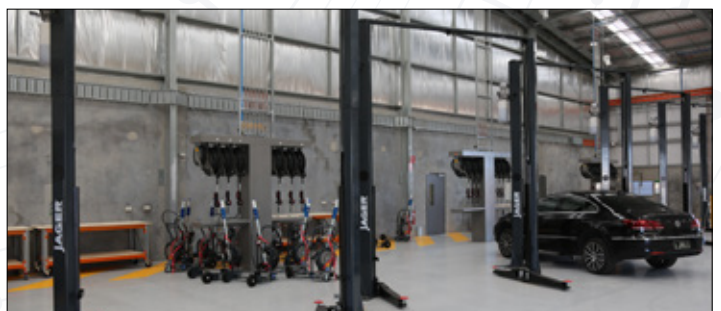

New technology:

- Less maintenance and excellent durability
- Thanks to our new hydraulic system, the lift has no component susceptible to wear and tear such as cables, pulleys and chains
- New automatic system for bleeding the hydraulic system

Tech Specs	JTC 40
Width between columns	2,795 mm
Load capacity	4 t
Minimum height	95 mm
Lifting height	2,000 mm
Column + Overhead conduit height	4,015 - 4,150 mm
Lifting time	28 seconds
Arm length (min-max)	620 - 1,240 mm / 825-1,440 mm
Overall width	3,490 mm
Motor	3PH 415V or optional 1PH 240V
