

DESCRIPTION

Heavy-Duty Transmission Jack

Especially designed for lifting heavy truck transmissions, the VLT6 has a lift capacity of 600kg. With a wide range of features and a focus on safety, this is a great heavy duty hydraulic transmission jack for busy commercial workshops.

- The 3 stage telescopic cylinder ensures a very low minimum height
- 5 legs offers the best stability on the market
- Simple operation by use of 3 pedals leaving both hands free for working
- Pneumatically controlled high speed guarantees quick and efficient lifting
- Large and robust swiveling wheels (2 with locks) offers optimum manoeuvrability
- Built-in safety overload valve

Designed specifically for heavy truck transmission lifting and precision placement, the VLT6 Hydraulic Transmission Jack is a stable and manoeuvrable jack that offers ease of use and versatility for busy heavy vehicle workshops.

Tech Specs	VLT6
Capacity	600 kg
