

# 150 Tonne

## 150T High Tonnage Hydraulic Mining Jack

### DESCRIPTION

#### Extremely easy to manoeuvre and position

These high tonnage hydraulic jacks are strong and versatile but yet extremely easy to manoeuvre and position. Securing extremely stable heavy duty lifting on any challenging terrain combined with a high level of safety and minimal strain on the operator's back.

Due to our innovative chassis construction jack repair maintenance and even wheel changing can be made onsite keeping the jack in a top working condition.

We do not compromise and trust that our high tonnage hydraulic jacks will facilitate reductions in down time and set new standards for removing, disassembling and repairing machinery in all off highway heavy duty industries.

#### High Tonnage Hydraulic Jacks

Our high tonnage hydraulic jacks are designed to meet or exceed all safety demands in the mining and constructions industries.

Optimum operator safety is ensured via a wide range of safety measures, a.o. safety valve to prevent overload, load lock or any failure due to hydraulic fluid loss, locking rings and a deadman's control on the handle.

A wide range of accessories combined with an outstanding durability in all operating conditions our high tonnage hydraulic jacks are designed to meet all needs.

#### Hydraulic Jack Facts

High tonnage hydraulic jacks for the mining and construction industries.

- Designed for off-road maintenance on heavy duty industrial machinery
- All steel, heavy duty chassis build to fit harsh environment
- Large rubber tires allow easy positioning on challenging surfaces
- Innovative chassis construction facilitates jack repair, even wheel changing on site
- High ground clearance for clearing rail and rough terrain
- Multiple position handle for easy tilt back and ergonomic moving
- Safety valve prevents overload, load lock or any failure due to hydraulic fluid loss
- Handle with dead-man's control for optimum safety during lifting and lowering
- 2 lifting eyes and tilt-back handle position for easy jack handling and transport
- Can be supplied with extensions and locking rings (not standard)

# 150 Tonne 150T High Tonnage Hydraulic Mining Jack

## DESCRIPTION

Tech Specs	150-1L Jack	150-1H Jack
Capacity	150 Tonne	150 Tonne
Min. Height	460 mm	970 mm
Max. Height	595 mm	1,620 mm
Frame Length	1,300 mm	1,735 mm
Handle Length	1,360 mm	1,360 mm
Width	350 mm	575 mm
Width (with wheels)	625 mm	715 mm
Air supply	8 -10 bar	8 - 10 bar
Weight	355 kg	575 kg
Ground Clearance	40 mm	95 mm
