

ABS5 / ABS12

5T Axle Stand

DESCRIPTION

Especially equipped to support low clearance vehicles

The ABS5-230 axle stand with spindle extension is a user friendly unit. The spindle extension offers the operator a quick and precise adjustment of the height. While suited for most vehicles, this model is especially equipped to support low clearance vehicles including buses, forklift trucks and flat trailers.

- 5t load support capacity
- Versatile suiting most vehicles
- Low clearance
- Minimum height 230mm

Offering multi-height adjustability through spindle positioning, this unit is easily able to accommodate the multiple heights required for your holding support needs. With a 5t capacity this spindle axle stand is made from a robust construction ensuring maximum stability, easy multi-levelling and long life.

Ideally suited to support and aid when vehicles are in the air, this unit provides stability and strength to ensure the safety and easy working conditions your commercial business needs to get the job done.
