

DK13HLQ

1.3T Hydraulic Jack

DESCRIPTION

Ideal for jacking low clearance cars

With an extremely low minimum height of 80mm this high lifting, long reach hydraulic jack is ideal for cars with low clearance. Made with a wide and robust frame of high strength steel, this unit is safe, noiseless and ergonomically designed for ease of use.

- 1.3t lift capacity
- Quick lift pedal
- Minimum height of 80mm

Lifting 1.3t from a low minimum height of 80mm through to a maximum height of 735mm, this high lifting long reach hydraulic car jack is an excellent unit for ground hugging cars.

With a wide and robust frame made from high strength steel, the DK13HLQ is fitted with a quick lift pedal for easy reach of lifting point and provides precise and safe control whilst lowering.

This hydraulic car jack is loaded with safety features including built-in safety overload and manual dead man's release for optimum safety when lowering.

The noiseless wheels incorporate polyurethane central O-rings, offering maximum surface protection for the vehicle, while the ergonomically designed handles ensures a positive and safe experience for operators.
