

DESCRIPTION

Heavy-Duty Alignment Knuckle Lift

The KAR 45 vertical electro-hydraulic knuckle lift is ideal for wheel alignment purposes, offering maximum stability and precision during the convergence phase.

The lift's special frame and its four fixed-joint legs offer you a perfectly firm runway for every loading condition you throw at it in the workshop.

- Lift capacity 4.5t
- Runway length 5,000mm standard
- Perfect stability
- Innovative shock absorber system
- Freedom under and around while working

Tech Specs	KAR 45
Lifting Capacity	4.5T
Overall Length	5,690 mm
Runway Length	5,000 mm
Collapsed Height	210 mm
Air Operated	4-8 Bar
Oil Pressure	220 Bar
Oil Capacity	13 l
Gross Weight	2,170 Kg
Lifting Time	50 Seconds
Power	3Ph / 415V
