

# SD20L / SD26L

## Hand Hydraulic Jacking Beam

### DESCRIPTION

This convenient hand hydraulic jacking beam can lift up to 2t and is ideal for passenger cars and vans. With its manual double acting pump, you can lift quickly and efficiently, every time.

- 2t lift capacity
- Hand hydraulic
- Manual double acting pump

With its 2t lift capacity and manual double acting pump, easily lift passenger cars and vans, reliably and efficiently. Featuring a low closed height of only 180mm, this jacking beam is suitable for vehicles with a low clearance.

The flexible top support beam can quickly be extended up to 1610mm, while its unique height adjustable support arm system is designed to fit all current lifts and pits. The simple two-hand lowering operation with dead man's release, automatic safety locking device and overload valve provides this unit with optimum safety.

Supplied with three extension sets (10/40/85mm) and rubber cushion for protection of car and van bodies, this hand hydraulic jacking beam is a great addition to your busy workshop.
